Mr. Eugene A. Carpovich  
Technical Dictionaries Co.  
Box 144  
New York, N.Y. 10031

Dear Mr. Carpovich:

With regard to your letter of 9 January, which [redacted]  
has passed along to me:

25X1

I regret to say that we have no knowledge of the identity of the Institute which is reportedly seeking "specialists for doing abstracts from Russian literature" in various disciplines. I can say without fear of contradiction that it is not FBIS. Which is not to say that we have no need of that kind of talent; simply that we are not currently advertising.

Since we can think of no likely quarter to forward your enclosures to I am returning them to you in hopes they will find some practical use. Certainly if you have not advertised your offerings lately in the Washington press, this might be an opportune time to do so, since you have clearly had an intimation of current interest.

With best wishes,

25X1

Chief, Production Group, FBIS
